## **REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance:

The prior art does not show or fairly suggest the claimed invention of a variable focal length projection objective having the claimed structure and claimed limitations, wherein a rejection under 35 USC 102 or 103 would be improper. Please particularly note the combination of claimed elements and claimed limitations, including a first to third group of lenses along a common axis, and starting from the side facing a projection screen, the first group of lenses is for focusing, the second group of lenses for varying the focal length and the third group of lenses is stationary, wherein two conditional statements to be met are recited. With respect to the phrase "preferably," in this case this phrase is utilized to introduce "use" language, and has been determined not to be indefinite. Therefore, the claimed invention is considered to be in condition for allowance as being novel and nonobvious over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Priority***

2. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.
